Grenadier Homes

Grenadier Homes was founded in Dallas in 1992 by childhood friends Anthony Natale and John Egnatis, who lead the company. What started as a small renovations company quickly grew to luxury townhomes and mid-rises in Uptown and on to beautiful new construction homes throughout the metroplex.

At award-winning Windsong Ranch, Grenadier offers a smart-sized and value-priced alternative to single-family living in a luxury setting with world-class amenities. The privilege of offering two distinct home styles in two distinct villages is what attracted Grenadier to Windsong.

All Grenadier Villas and Townhomes feature outdoor patios and courtyards in the front of the home to allow for scenic vistas and neighbor interaction opportunities. Grenadier homeowners will have access to the world-class amenities found in Windsong Ranch, and, as an added bonus, will also have their front yards and home exteriors maintained by professional neighborhood management for true lock-and-leave living.

Partners In Building

PARTNERS IN BUILDING has designed and built literally thousands of one-of-a-kind homes since the company was founded in 1986. It's taught us how to do one thing really well – build the home you want. We understand that building a custom home isn't about cost per square foot. It's about thought per square foot, and there is simply no other builder who can design your custom home, provide a fixed price before the home starts and begin construction as efficiently as we do.

That kind of custom home experience is invaluable to our customers. It's how we ensure you get the best of both worlds – the personal attention you need from a local team of sales counselors, builders, and interior designers and the firm financial foundation and buying power of the #1 Custom Builder in Texas.
